Expana regularly solicits feedback from stakeholders to ensure that our coverage reflects current trading conditions and practices. To improve market transparency and to provide stakeholders with meaningful information, on September 9, 2024, Expana proposed changes to its seafood market coverage and sought industry feedback on those proposed changes. The comment period has now closed. Expana will make the following improvements to its seafood market coverage effective October 29, 2024.

- Icelandic whole salmon
- Icelandic whole salmon, boated
- Northeast Canadian whole salmon, LTL (less than truckload)
- West Coast Canadian whole salmon, LTL (less than truckload)
- Pollock, Alaska Single Freeze, PBO (Pin-bone Out)

This latest addition further expands Expana’s initiative to provide transparency in the seafood market. The proposed tables will be presented in the format below, with new items highlighted:
